SUMMARY

I am enthusiastic about developing efficient and intelligent software solutions. Completed a Diploma in Computer Science and Engineering and currently pursuing a B.Tech in Artificial Intelligence and Data Science. Proficient in Python, Java, C++, DSA, C, and web development, with strong problem-solving skills and a focus on building scalable, high-performance applications.

WORK EXPERIENCE

Full Stack Java Intern , Certway Institute , Nagpur.   **May 2024 - July 2024**

- Developed a mini-project on CRUD (Create, Read, Update, Delete) operations, demonstrating strong understanding of backend logic and database connectivity.
- Independently developed a fully functional e-commerce website using Java for backend, and HTML, CSS, and SQL for front-end and database management.
- Designed and implemented core modules for product management, user authentication, and order processing.

EDUCATION

Bachelor of Technology in Artificial Intelligence & Data Science   **2025-2028**

Anjuman College of Engineering and Technology, Nagpur
Rashtrasant Tukdoji Maharaj Nagpur University

Diploma in Computer Engineering   **2022-2025**

Anjuman Polytechnic, Sadar, Nagpur
Maharashtra State Board of Technical Education (MSBTE)
